**Syllabus language for Health and Safety:**

The MSU College of Music is committed to the health and safety of its students, faculty, and staff. Since hearing conservation is of particular concern, complementary foam ear plugs for hearing protection in any practice, rehearsal, or performance situation are available from the Dean's assistant in Room 105. For further information on musicians’ health, you are encouraged to read the advisories on musculoskeletal, vocal, hearing and psychological health posted at http://music.msu.edu/musicians-wellness.
